MAKING INNOVATION HAPPEN

Business creation

The EIT Community supports the creation of start-ups and helps accelerate their growth by offering access to finance, to new customers and new markets as well as providing support to enhance business skills.

Innovation Projects

Innovators from different sectors, backgrounds and disciplines connect to bring new solutions to the market with a focus on creating sustainable products and services.

Entrepreneurial education

The EIT Community offers Master and PhD programmes as well as online and executive education courses that provide students and entrepreneurs with an innovative mindset and entrepreneurial skills.

Partnerships

Leading organisations from business, education and research come together in EIT Knowledge and Innovation Communities dedicated to tackling global challenges. These partnerships offer a wide range of support activities for entrepreneurs, innovators and students across Europe.

Europe & beyond

The EIT strengthens Europe's ability to innovate and enables a pipeline of cutting-edge solutions and talent in Europe's largest innovation ecosystem. The EIT is an integral part of Horizon Europe, the EU's R&I programme for 2021 to 2027.
